Obiective

Acest proiect are rolul de a simula un site de licitatii pentru obiecte de colectie ale fotbalului romanesc.

Site-ul contine:

- Pagini de login/sign-up
- Baza de date pentru utilizatori
- Baza de date pentru obiecte
- Sectiune in care utilizatorul logat poate licita
- Posibilitate de logout

Structura Aplicatiei

Login/Sign-up

Formularul de login este format din doua campuri, username si password. In cazul in care utilizatorul nu are cont acesta poate accesa prin formularul de login cel de sign-up.

Formularul de sign-up este compus din urmatoarele campuri:username, email, password .

Structura bazei de date

Baza de date contine 2 tabele: “users” si “products”.

Tabelul ”users”

-retine datele utilizatorului

		id	username	email	password
<input type="checkbox"/>	 Edit  Copy  Delete	2	admin	admin@gmail.com	827ccb0eea8a706c4c34a16891f84e7b
<input type="checkbox"/>	 Edit  Copy  Delete	3	coman	1@yahoo.com	52857288552a4eea4c3216684a8095ea
<input type="checkbox"/>	 Edit  Copy  Delete	6	cata	2@yahoo.com	
<input type="checkbox"/>	 Edit  Copy  Delete	8	Anca	12@yahoo.com	anca
<input type="checkbox"/>	 Edit  Copy  Delete	9	john	john@yahoo.mail	1234
<input type="checkbox"/>	 Edit  Copy  Delete	10	adytza99	asu_de_trefla@yahoo.com	bmw
<input type="checkbox"/>	 Edit  Copy  Delete	11	student	student_ti@gmail.com	student
	<input type="checkbox"/> Check all	With selected:		 Edit  Copy  Delete  Export	

Tabelul ”products”

-retine datele produselor de pe site

		id	name_of_product	bid	last_user_to_bid
<input type="checkbox"/>	 Edit  Copy  Delete	1	Tricou Gheorghe Hagi - CM 1994	1000	admin
<input type="checkbox"/>	 Edit  Copy  Delete	2	Tricou Romania - CM 1970	800	coman
<input type="checkbox"/>	 Edit  Copy  Delete	3	Tricou Steaua- 1976	800	Anca
<input type="checkbox"/>	 Edit  Copy  Delete	4	Tricou Romania("bruised banana") - 1993	1600	admin
<input type="checkbox"/>	 Edit  Copy  Delete	5	Tricou Steaua Bucuresti- 1986	950	cipi
<input type="checkbox"/>	 Edit  Copy  Delete	6	Cartonas Gheorghe Hagi - CM 1998	150	admin
<input type="checkbox"/>	 Edit  Copy  Delete	7	Cartonas Gheorghe Popescu - CM 1998	130	admin
<input type="checkbox"/>	 Edit  Copy  Delete	8	Sticker Echipa Nationala - CM 1998	55	admin
<input type="checkbox"/>	 Edit  Copy  Delete	9	Cartonase Echipa Nationala- EURO 2008	110	admin
<input type="checkbox"/>	 Edit  Copy  Delete	10	Manusile lui Helmuth Duckadam - 1986	3000	admin
<input type="checkbox"/>	 Edit  Copy  Delete	11	Ghetele lui Gheorghe Hagi - EURO 2000	2000	admin
<input type="checkbox"/>	 Edit  Copy  Delete	12	Articol ziar Arges-Real Madrid (1972)	300	cata
<input type="checkbox"/>	 Edit  Copy  Delete	13	Bilet meci Craiova-Benfica (1983)	480	cata

DESCRIERE MODULE SI EXEMPLE DE COD

Funcția de login : formularul si scriptul in php care permite introducerea userilor in tabel

```
<?php include('server.php') ?>
<!DOCTYPE html>
<html>
<head>
  <title>Registration system PHP and MySQL</title>
  <link rel="stylesheet" type="text/css" href="style.css">
</head>
<body>
  <div class="header">|
    <h2>Login</h2>
  </div>

  <form method="post" action="login.php">
    <?php include('errors.php'); ?>
    <div class="input-group">
      <label>Username</label>
      <input type="text" name="username" >
    </div>
    <div class="input-group">
      <label>Password</label>
      <input type="password" name="password">
    </div>
    <div class="input-group">
      <button type="submit" class="btn" name="login_user">Login</button>
    </div>
    <p>
      Inca nu esti membru? <a href="register.php">Sign up</a>
    </p>
  </form>
</body>
</html>

// LOGIN USER
if (isset($_POST['login_user'])) {
  $username = mysqli_real_escape_string($db, $_POST['username']);
  $password = mysqli_real_escape_string($db, $_POST['password']);

  if (empty($username)) {
    array_push($errors, "Username is required");
  }
  if (empty($password)) {
    array_push($errors, "Password is required");
  }

  if (count($errors) == 0) {
    $password = md5($password);
    $query = "SELECT * FROM users WHERE username='$username' AND password='$password'";
    $results = mysqli_query($db, $query);
    if (mysqli_num_rows($results) == 1) {
      $_SESSION['username'] = $username;
      $_SESSION['success'] = "You are now logged in";
      header('location: index.php');
    } else {
      array_push($errors, "Wrong username/password combination");
    }
  }
}
```

Funcția care permite userului să liciteze pentru produs:

- se creează un formular care permite ca noile date despre produs (ultimul licitant și suma licitată) să fie actualizate în tabelul “products”, în același script se creează și “div-uri” pentru a putea fi afișate prin html pe pagină.

```
// Fetch the data from the 'products' table
$sql = "SELECT * FROM products";
$result = $conn->query($sql);

// Check if there are any products in the database
if ($result->num_rows > 0) {
    // Display all the products in separate containers
    $count = 0;
    while($row = $result->fetch_assoc()) {
        if ($count == 0) {
            // Open a new container for the first 5 products
            echo '<div class="product-container-first">';
        } elseif ($count == 5) {
            // Close the previous container and open a new one for the next 4 products
            echo '</div><div class="product-container-next">';
        } elseif ($count == 9) {
            // Close the previous container and open a new one for the last 4 products
            echo '</div><div class="product-container-last">';
        }
        // Display each product in a separate div
        echo '<div class="product">';
        echo '<p># '.$row['id'].'</p>';
        if($row['last_user_to_bid']=='admin') {
            echo '<p>Pret de start: '.$row['bid'].' €</p>';
        } else {
            echo '<p>Ultimul licitant: '.$row['last_user_to_bid'].'</p>';
            echo '<p>Suma curenta: '.$row['bid'].' €</p>';
        }
        // Add a form for the user to submit a new bid
        echo '<form action="update_bid.php" method="post">';
        echo '<input type="hidden" name="product_id" value="'.$row['id'].'">';
        echo '<input type="number" name="new_bid" placeholder="Noua suma">';
        echo '<input type="submit" name="submit_bid" value="Liciteaza">';
        echo '</form>';
        echo '</div>';
        $count++;
    }
}
```
